## Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

### Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
  - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
  - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
  - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record, taken as a whole, does not show nor suggest the combination of limitations required by the claims. Specifically, the prior art lacks the dimensional limitations required by the claims such as the first and second sealing surfaces being spaced apart by a first distance measured parallel to the center axis that is substantially equal to a second distance measure perpendicular to the axis between the first and second sealing surfaces, each of the convexly curved surfaces extending through an arc of about 60 degrees, or the annular center section having a slope of about 45 degrees with respect to the center longitudinal axis. The prior art discloses various S-shaped metallic seals comprising first and second ends having sealing surfaces on convexly curved surfaces lying in opposite facing directions (see Sumida, Taudt, or Pegon for examples). The prior art also discloses seals having sealing surfaces wherein when loads are applied, the seal deforms primarily due to torsional stress (for examples, see Asplund or Halling '901). Other prior art, such as Martin '216, Pegon, Halling '523, or Swensen '052 and '445, discloses/teaches some dimensional aspects of s-shaped seals. However, none specifically state that the sealing surfaces are spaced apart by a first distance measured parallel to the axis that is substantially equal to a second distance measure perpendicular to the axis, that the convex surfaces extend through an arc of about 60 degrees, or that center section has a slope of about 45 degrees with respect to the axis. Further, these references (especially Martin or Pegon) do not disclose that the sealing surfaces are arranged such that any sealing loads applied cause the surfaces to deform from torsional stress. The examiner acknowledges that such dimensional limitations create a shallow s-shaped seal wherein deflection is controlled to create a more effective seal, as argued

Art Unit: 3676

by Applicant. And, there does not appear to be any motivation, absent Applicant's own disclosure, to modify the prior art in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
